## Try DiskDeleter Commercial License, Free for 14 days. (No Credit Card Required.)

- This program allows customer to test DiskDeleter for a predetermined time period without a customer purchase agreement, contract, or a customer PO.
- We will provide setup program which enables you to install Disk Deleter on your USB flash drive. This will eliminate the need for shipping physical unit back and forth just for evaluation and save your time and cost.
- After the evaluation period, the software will expire. If you decide to purchase one, please contact us.

### System requirements for Initial Setup

- A USB Flash Drive (4GB up to 32GB)
- Windows 10 (x64) computer with internet connection

Recommended USB models	Please do not use:
